

Dear Hiring Manager,

I am writing to apply for the open position at your organisation.

With over 12 years of software engineering experience, I am currently the Head Of Engineering at Frontier, a leading Web3 and blockchain platform that enables users to access and manage their decentralized finance assets across multiple networks and protocols. As the Head Of Engineering, I lead a team of talented engineers who design, develop, and deploy scalable and secure solutions for Frontier's web and backend applications, leveraging cutting-edge technologies such as Go, React, Nodejs, and Ruby.

I have a strong background in full-stack development, having worked as a Full Stack Engineer at Tesco Bengaluru for over Seven years, where I built and maintained high-performance and user-friendly web applications using Ruby, Java, React and Angular.

I have a passion for learning new technologies and frameworks, and I have obtained certifications in Software as a Service (RoR) and Shaping up with Angular.js from reputable online courses. My core competencies include web development, web3 development, SaaS development, team leadership, project management, and entrepreneurship.

I am driven by the mission of creating innovative and impactful solutions that empower users and businesses to harness the potential of the Web3 and blockchain ecosystem. I value collaboration, diversity, and excellence, and I seek to bring these qualities to the Frontier team and culture.

I look forward to speaking with you further about the position. Thank you very much for your time and consideration.

Sincerely,

Devaraj K(Engineering Manager)

Bengaluru, India
